

## Meeting Agenda

### DLC Industry Advisory Committee Meeting Q4 2025

Wednesday, December 17<sup>th</sup>, 2025

2:00pm – 4:00pm EST

#### **Welcome & Agenda Review**

DLC staff welcomed attendees, reviewed the meeting agenda, and covered meeting guidelines.

#### **IAC Introductions**

New and returning Industry Advisory Committee members introduced themselves. The updated committee composition reflects expanded market coverage and geographic diversity.

#### **Recognizing IAC Contributions**

DLC staff reflected on the 2023–2025 IAC term and reviewed recurring discussion themes that have informed program development, including implementation learnings from SSL V5.1, utility program design for lighting controls, and emerging issues such as light pollution, sustainability, flicker, and product quality.

#### **2026 Planning**

**NLC:** Developments in 2026 will place an emphasis on supporting midstream and custom utility programs and enhancing the usability of NLC information within the NLC QPL.

**Hort:** Provided an overview of the horticultural lighting market and discussed plans to initiate development of the next iteration of Hort technical requirements.

**SSL/LUNA:** DLC reviewed plans to support manufacturers and utility members through the transition to SSL V6.0 and LUNA V2.0, including guidance documents, webinars, and targeted outreach. An update to the surveillance policy is also planned.

**Utility Membership:** Priorities include supporting consistent implementation of new requirements and continued use of the Program Planning Working Group to address emerging policy and market shifts.

#### **SSL V6.0 & LUNA V2.0 Transition Support**

DLC will provide guidance documents and other resources such as webinars and articles to support the transition. Resources will not only be designed to support manufacturers directly, but also to ensure member program alignment and adoption.

**Closing**

Next meeting date TBD, poll to be sent for next meeting date.
